Taxes and Assessments. THAT a great wrong is done to citizens an property owners in this city, by not giving suf-ficient publicity to taxes and assessments on property, is evident to any one who will take he trouble to look over the list of property now being sold, at the City Hall, for taxes. In the list of names of property owners will be found those of many of our most prominent citizensmen, who, it cannot be supposed for a moment, would allow taxes to run on year after year, drawing twelve per cent interest, if they had any knowledge that such was the case.

One great fault is in the want of proper advertising instead of selecting some obscure journal scarcely ever seen by the business public, those journals that are universally read should be the medium for this purpose. Persons calling for their tax bills at the Receiver's office, should always be furnished with a full bill of all liens upon the property, whether for rents, taxes or assessments. If this was always promptly done, it would save a vast sum cessary expense, and much time and

Serious complaints have for years been made and justly so, that assessments for opening regulating and grading streets and other improvements are made without any knowledge on the part of property owners. A petition is got up, signed by a few parties, upon which the Corpo ration advertises in some out of the way sheet for objections. No one seeing it, no objection is made-the contract is given out to some favored contractor, and probably the first information the property owner has his property has been sold on Corporation lease for fifty to one hundred years for the assessments. Or if he is fortunate enough to hear of the sale previous to the expiration of the two years allowed for redemption, he must pay double the legal rates of

interest to redeem it. It is time there was an end to this course of proceeding. If citizens and real estate owners would know what is being done by the authorities, and thus be enabled to keep their property clear from such entanglements, let them demand suitable advertising in such channels as the pub. lic will be likely to see it. The rates of taxa. tion are sufficiently burther some without having added thereto, inordinate expenses, cocasionally by a sale when a sale would be avoided by suitable publicity being given at the outret.

### Later from Hayti.

By the arrival at this port of the brig George Albert, from Port au Prince, we have received our Hayti fi'es to October 22. The tris of the prisoners arrested for their complication in the late conspiracy commenced on the 17th of October. The charges

commenced on the 17th of October. The charges against the accused were:

1. A compriser and military plot with the object of changing the form of government, of exciting the military to rise in arms against the object of providing evial war, of delivering the capital to messeere, devastation and pullage.

2. Of promoditated assessination by means of ambush on the person of the lady Manneville Blander nee Cosa Germann, daughter of his Excellency the President of the Republic, which assessination was consummated September 3d, at about seven of clock in the evening, in the residence of the victim.

victim.

3 Of attempted assassination at the same time and place, on the person of the chief of the State, the assassination of Madame BLARFORT, having only for its object to attract her father into the ambush laid for him."

The act of accusation proceeds at a great length to specify in detail the features of the conspiracy. Twenty in all of those implicated in the conspiracy were condemned to death, and sixteen suffered the penalty. One was respited and three are in another country out of the reach of justice. The President has published a proclamation urging the people to unite with him in his efforts to establish a worthy government and increase the prosperity of Hayti. and warning other conspirators to read a lesson in the qu'ck punishment awarded to those recently excouted. The Court Martial condemned General D DELVA, and his son, L'eutenant ALFRED DELVA, to death, for their participation in the conspiracy. General OCEAN ULYSSE, for having suppressed the facts connected with the insurrection, of which he was previously aware, was sentenced to three years' im-

M. Pierre Andre, a senator, and a prominent officer.

M. Pierre Andre, a senator and a prominent official, died on the 8th. A grand funeral service for the repose of the soul of Madame Blanfort, the assassi nated daughter of the President, had taken place at Port au Prince. In a funeral sermon the Abbe Peltier drew a comparison between Geffrard and Pau Emilius after his victory over the King of Macedonia. Although the Delvas, father and son, are condemn ed to death, it is not likely the sentence will be car

ried into effect, because these men are safe in France, and their complicity is only proved by the letters they sont to the various leaders of the conspiracy in Hayti. The intention of the conspirator was to make General Prophete President in place of GEFFFARD. PROPRIETE, it will be remembered, wa allowed to depart by GEFFRAED, came to New York, and sailed almost three weeks ago for Havre, to join DELVA at Paris Souldrover, in this retreat at Kings ton, Jamaice, on hearing of the assassination of GEFFEARD's daughter ordered a bigh mass of thanks giving, but the priest he applied to refused to of ficiate. The fact has aroused an additional ill-feeling towards Sourceque on the part of the Haytiens. stone fences, though more durable, are much more costly-taking the average cost at 75 cents per rod, we have for the first cost of the fences in the State, \$67.000,000. The cost of keeping these up and interest at six per cent. on the first cost cannot be less than \$10.720,000 per annum. The idea is absurd of making a man pay half the cost of a division fence which achieves no other good than keeping other folks' cattle off his property. man has any more right to bring up his cattle to practices of dishonesty, in posching on his neighbors property, than to train up his children as highway men. The principal objection to fences was their inconvenience in working a large portion of the land, and in transporting grain, manure, etc., from place to place over the farm. They propagate weeds, shelter vermin, afford lodgements for snow drifts, cause dispute among neighbors, and deform the beauty of the landscape. Loud applause followed the close of his remarks, and on its conclusion Mr. S. ROBINEON spoke on the subject. He thought the law enacted in 1838, and alluded to by Mr. BLUNT, was one of the greatest pieces of modern barbarity and unjust law extant, it was worse than the Virginia justice meted out to Ossawatanie Brown. He stated the afflictions he had encountered on the fencing subject in connection with his 8 acre farm in Westchester county, and ended by stigmatising the fencing law as a piece of heatherish barbarism. Mr. Kings URY thought it was worse than heathens would be guilty of. Mr. HARROLD related his experience in the reclaiming of a farm from the Hempstead plains of Long Is and, and expressed him el

NEW STYLE OF REVOLVER .- A new kind of revolver, by means of which twelve leads in succession are fired from six chambers, has recently been patented. Two charges are placed in each chamber the outer one is ignited first, by means of a conducting tube from the outer ones of the double row of nipples, and immediately afterwards, if desired, the lower or second charge is fired without a second cocking of the piece. Two hammers are fixed side by side, so arranged that one or both may be used, and the weapon, as proven by actual experiment in presence of officers of the United States navy and army, is not even so liable to accident as ordinary revolvers. Over 6.400 shets have been fired from one pistol without accident, and 200 successive shots without clogging or fouling. Another novelty in the invention is the employment of a shanked conical ball, which it is claimed reduces friction in firing. and furnishes a firmer breech for the firing of the outer lead.

### LEGAL REPORTS-MONDAY. Supreme Court.

Supreme Court.

The Old Police Cases.—The People ex rel. Beatty vs. the Police Board.—The General Term of this Court has just decided that only the first and eleventh points in the defendant's return to the alternative mandamus should be allowed to stand, and that the plaintiff was not a legally appointed partenian at the time of the passage of the Metropolitan Act, and the eleventh point was that he had since engaged in other pursuits.

The People ex. rel.—Patrick Murphy vs. The Police Court.—This socion now came on in the Circuit for tilal, and the books of the Police department were brought in by the cart load, to prove the circuits stances of the plaintiff's appointment and services. Metzell's clerk was also put upon the stand as to dates and particulars. The case is a dry one, geng through all the old musty records of the past and present police boards, and evolving nothing new or of interest. It will like y consume most of the present week.

interest. It will like y consume most of the present week.

Registered Letters—Edward Morrison vs. The Farmers' Bank of North Carolinas.—This was an action on a draft for \$250, alteged to have been sent to the defendant in North Carolina for collection. The plaintiff alleges that it was collected and the money was forwarded after collection (the collection being admitted) by registered eletter; that the money was forwarded in that manner for the reason that they were told to "collect and remit." The plaintiff then testified that he had had former dealings with the defendant, and that they had always, as is usual with all banks, forwarded by draft, and that he had not authorized them to remit in any other manner.

The Court instructed the jury, that if the plaintiff had not authorized the defendant to forward money instead of a draft, the remittance claimed by the defendant was not a sufficient payment in law, and that the plaintiff must recover. Verdict accordingly for the plaintiff.

Motion to discharge from arrest—John Field

the plaintiff must recover. Verdict accordingly for the plaintiff.

Motion to discharge from arrest—John Field vs. Themas Field and others.—The defendant in this case was arrestd some months since and held to ball in the sum of \$3.000, upon the affidavit of the plaintiff charging him with taking from the possession of the plaintiff, the sloop "Albert Richards," by violences, which vessel was under a mortrage to another, of whom the defendant was executor. The affidavit charged that the defendant was executor that the mortrague had no right, title or interest in the sloop, and that he took the vessel violently, notwithstanding that knowledge. The present motion was granted, after argument, and the defendant discharged, on the ground that the plaintiff had not proceeded in the right action; that his romedy was not by arresting the defendant, and that he had made out no case for arrest against him.

Landiords and Tenants.—James Hoskin vs. Herrmann Lehmeyer.—This was an action for damges against the defendant, for the alleged partial eviction of the plaintiff from the premises No. 100 Church street. The plaintiff claimed that he hired the house for a restaurant, for one year from February, 1856; that he had entered upon his business, and bad begun to de well and accumulate money, when the defendant came in, and commenced excavations that wholly deprived him, plaintiff, of the use of the premises, and ruined his business. He asked \$5.000 damages. The defence was that under an act of the Legislature of 1835, the defendant was entitled to make the improvements entered upon, while the plaintiff was tenant: and upon that point, the Court was moved to dismiss the complaint. It was, however, held that that question of law should be reserved for the General Term, and the case sent to the jury, which was done. Case still on.

THE JUSTICES OF THE PEACE,—Since the election numerous errors are alleged to have been discovered in the return of votes cast for Justice of the Peace of the 5th district, by which it is claimed that HERRY D. BURDSALL, instead of ANTHONY WALTER, is entitled to the certificate of election. The matter can be decided only by the Board of County Canvasaer, which neets to day to canvas the votes. It is also stated, that the election for Justices of the Peace is made void and of no effect, by reason of the names of all the candidates having been printed on the State ticket instead of on the Judiciary teket, Justices Fox and RYDER received a few votes, which were cast on a separate ticket. This will give them grounds for contesting the election in this respect.
